EXPERIENCE

Spring – Full Service Studio   London, UK
Full Stack Developer   Mar 2022 – Jul 2022
- Worked alongside the lead designer to create a marketing website, showcasing all available services and past projects of the studio (Website built with React.js, TypeScript and Gatsby.js).
- Helped plan, develop and launch a native iOS application for a client in the mental health sector called "Drift". Used Swift to build MVVM architecture and integrate in-app payments.

Crowdhaus – Property Discovery   London, UK
iOS Developer   May 2021 – Mar 2022
- Assisted in the process of scaling the mobile application to 25,000+ downloads, 400+ five-star reviews on AppStore, and 7,500+ property enquiries while keeping the VIPER architecture.
- Created a full-stack web application from scratch, accommodating users with no mobile app installed, resulting in 15,000+ monthly visitors and 1,000+ waitlist signups.

Junior iOS Developer   Jan 2021 – May 2021
- Designed some of the key features of an app, such as authentication, filters, profile, groups and AppClips.
- Worked closely with the CTO, CPO, and senior iOS Developer to improve and expand Crowdhaus iOS app.

Marketing Intern   Sep 2021 – Dec 2021
- Improved SEO, ASO, and produced visual and textual content for blog & newsletter with an audience of 1,000+.
- Worked closely with the CEO, Marketing Manager, and Growth Marketer to maintain user retention and increase metrics such as active users' numbers and app downloads.

PERSONAL PROJECTS

Card – Share Social Profiles. Created an iOS application and a website from scratch, featured on the main pages of Product Hunt, BetaList, StartupBase, Founder Facts and various newsletters. Reached 1,000+ downloads, 400+ active users and sold the project within five months.

Zonlo – Internships Across UK. Designed and built a Python-based web scraper and web application to create a single resource for finding internships across the United Kingdom.

Tabager – Manage Web Tabs. Designed and built a full-stack web application to organise web links across multiple browsers and devices. The project has been created to solve the personal problem of organising learning resources.
